

WEBSITE EXPERIENCE ENHANCEMENT, CASE STUDY DESIGN & IMPLEMENTATION COLLABORATION AGREEMENT

Prepared By:

Mehak Rustagi

Prepared For:

Soubhagya Ranjan

Project Duration:

Start Date: 18th May 2026

Expected Completion: **4th July 2026**

1. Introduction

This agreement outlines the scope, deliverables, timelines, payment structure, responsibilities, and collaboration process for the website enhancement and case-study experience design engagement between the client and the freelancer.

The objective of this collaboration is to create a stronger digital experience through improved UX strategy, visual storytelling, interface refinement, and product-focused presentation approaches inspired by modern interaction-driven experiences.

The engagement additionally includes collaborative coordination with the development team to ensure smooth implementation and consistency between design intent and final execution.

2. Project Objectives

The primary goals of this engagement are:

- Enhance the overall website experience and usability
- Improve landing page structure and visual hierarchy
- Reduce unnecessary clutter and cognitive overload
- Improve engagement and conversion flow
- Build stronger storytelling through product-oriented layouts
- Create visually immersive case-study experiences
- Explore modern interaction and presentation patterns
- Align design direction closely with development execution
- Create scalable and future-ready design systems and directions

3. Scope of Work

The project scope includes the following areas:

A. Website Experience Enhancement

The freelancer will work on improving the existing website experience through strategic UX and visual enhancements.

Scope Includes:

- UX audit and interface evaluation
- Landing page redesign direction
- Information architecture refinement
- Section restructuring and layout optimization
- Typography improvements
- Visual hierarchy enhancement
- CTA placement optimization
- Component consistency improvements
- Spacing and readability refinement
- Micro-interaction and motion recommendations
- Responsive layout considerations
- Conversion-oriented UI improvements
- Trust-building section enhancement
- Suggestions for future scalability and expansion

B. Case Study & Product Storytelling Design

The freelancer will collaborate on creating immersive and visually engaging case-study presentations inspired by modern product storytelling approaches.

Scope Includes:

- Case study structure planning
- Experience and inspiration research
- Storytelling flow exploration
- Product presentation strategy
- Visual direction and creative ideation
- Growth.Design-inspired layout references
- Product-focused interaction concepts
- Mockups and visual graphics support
- Product journey visualization
- Unique section exploration
- Narrative-driven presentation concepts
- Engagement-focused storytelling layouts

The process may also include researching and referencing modern product presentation styles and adapting them according to the client's brand positioning and objectives.

C. Development Collaboration & Implementation Support

The freelancer will coordinate with the developer/team during implementation to maintain alignment between design and development.

Scope Includes:

- Development handoff support
- Design clarification during implementation
- Visual consistency review
- Interaction guidance
- Layout alignment discussions
- Assistance with maintaining intended user experience during development

This collaboration support is limited to design coordination and does not include full frontend/backend development unless separately discussed.

4. Deliverables

The project deliverables may include:

- High-fidelity UI screens
- Landing page redesign concepts
- UX improvement recommendations
- Case study layout designs
- Visual storytelling concepts
- Product showcase sections
- Mockups and graphics direction
- Interaction references
- Implementation notes for developers
- Revision iterations
- Final design handoff files

Deliverables will be shared digitally through agreed communication or collaboration platforms.

5. Timeline & Workflow

Expected Completion:

Till 4th July 2026

The workflow may generally follow:

1. Discovery & discussion
2. UX analysis and inspiration exploration
3. Initial visual directions
4. Website refinement phase
5. Case study design exploration
6. Iteration and feedback rounds
7. Developer collaboration and implementation alignment
8. Final handoff

Timelines are dependent on:

- Timely feedback from the client
- Availability of required content/assets
- Approval cycles
- Scope consistency

Any major delays in communication or approvals may proportionally extend the project timeline.

6. Payment Terms

Total Project Fee:

₹20,000 INR

Payment Breakdown:

- ₹10,000 after website handover
- ₹10,000 after completion of the case study work

Payment Conditions:

- Payments are to be completed within 3 working days of milestone completion.
- Work handoff may be paused if payments are significantly delayed.
- Any additional work outside the agreed scope may be billed separately after discussion and approval.

7. Revision Policy

The project includes reasonable feedback iterations throughout the design process.

Included:

- Refinement discussions
- UI adjustments
- Layout modifications within approved direction

Not Included:

- Complete redesign after approval
- Major scope changes
- Additional pages/features not discussed initially
- New functionality requests outside the agreed scope

Significant changes beyond the approved direction may require timeline and pricing revisions.

8. Client Responsibilities

The client agrees to:

- Provide timely feedback and approvals
- Share required content, assets, references, and access
- Maintain active communication during the engagement
- Ensure internal stakeholder alignment before approvals where possible

Delays in feedback or communication may affect delivery schedules.

9. Ownership & Intellectual Property

Upon completion of full payment:

- Final approved deliverables will be transferred to the client for usage.
- Working files, exploration drafts, unused concepts, and process files remain the intellectual property of the freelancer unless otherwise agreed.

The freelancer retains the right to:

- Showcase the work in portfolio/case studies/social platforms
- Present the project for professional and promotional purposes

unless a separate NDA or confidentiality agreement is signed.

10. Confidentiality

Both parties agree to maintain confidentiality regarding sensitive business information, unreleased product details, and proprietary materials shared during the collaboration.

11. Project Pause or Termination

Either party may terminate the engagement through written communication.

In such cases:

- Work completed till the termination date must be compensated proportionally.
- Previously completed milestones remain billable.
- Delivered work before termination may continue to be used only after cleared payments.

12. Limitation of Scope

This agreement primarily covers:

- UX/UI direction
- Visual design
- Storytelling exploration
- Design collaboration support

The agreement does not include:

- Full development execution
 - Backend engineering
 - Hosting/server management
 - Paid assets/licenses
 - Marketing campaigns
 - SEO implementation
- unless separately discussed.

13. Acceptance

By proceeding with the engagement, both parties acknowledge and agree to the terms and scope outlined in this agreement.
